

HPE Networking Instant On Access Point Dual Radio 2x2 Wi-Fi 6 5-Pack (RW) AP21 (S1T18A)

What's new

- Wi-Fi CERTIFIED 6™ support for up to 50 user devices.
- Designed to provide better speed and coverage for smaller spaces.
- PoE or DC powered to expand your network.
- Use with any other Instant On access points to create a Smart Mesh to extend your network without additional ethernet cables.
- Best when used in conference rooms, home offices, or low-density environments.

Overview

The HPE Networking Instant On Access Point AP21 is a dual radio indoor access point designed to bring connectivity to small spaces. This Wi-Fi CERTIFIED™ 6 access point offers modern Wi-Fi standards in a small footprint to enhance the connectivity of your network for up to 50 devices. The dual-band radios offer suitable range for a 1500 sq ft space at an affordable price with the same features as other more costly access points. The HPE Networking Instant On AP21 can also be used with Smart Mesh with any other Instant On access point to extend your network coverage without needing to run new cables—HPE Networking Instant On AP21, small yet mighty

coverage for your growing wireless needs.

Features

802.11ax Wi-Fi Certified 6

The HPE Networking Instant On Access Point AP21 features Orthogonal Frequency-Division Multiple Access (OFDMA) which allows them to handle multiple Wi-Fi 6 capable clients on each channel simultaneously; this improves efficiency by boosting overall capacity and reducing latency.

Target Wake Time (TWT) – Ideal for IoT devices that communicate infrequently, TWT establishes a schedule for when clients need to communicate with an AP. This reduces power consumption and can extend the battery life of clients.

Multiple Input, Multiple Output (MIMO) – Allows the access point to serve multiple clients (Wi-Fi 5 and Wi-Fi 6) simultaneously.

Safeguard Your Network With WPA-Enterprise Features

HPE Networking Instant On Access Points AP21 come with top-level security features, always on, out of the box, such as WPA2/WPA3 and Enhanced Open support for protecting your wireless network.

Use the HPE Networking Instant On mobile app or web portal to see where clients on your network are going with the application's insight.

Block certain types of traffic in the mobile app or web portal to keep your network safe and employees productive.

Create a Custom Guest Access Experience

HPE Networking Instant On Access Point AP21 is ideal for single-site businesses or homes like cafe's, restaurants, or office buildings.

The easy-to-use captive portal, free to set up in the HPE Networking Instant On app or web portal, creates an easy onboarding process for employees or guests.

Integrate with 3rd party analytics partners like Skyfii, Aislelabs, and Wavespot to gain customer insights while they are on your network.

Technical specifications

HPE Networking Instant On Access Point Dual Radio 2x2 Wi-Fi 6 5-Pack (RW) AP21

Product Number	S1T18A
Differentiator	HPE Networking Instant On Access Point AP32 5-Pack option will also ship with region-specific PSU's but will be packaged together to reduce the amount of packing waste when compared to the bundle SKUs. These are ideal for installers or facilities that have many rooms that call for small access points
Certifications	Wi-Fi Certified 6
Input voltage	PoE: 802.3at (class 4) or 802.3af (class 3) DC power (12V)
Wi-Fi antenna	Dual Omnidirectional 2x2 MIMO
Connectivity, standard	Wi-Fi 11ax
Ports	1 GbE BaseT Uplink DC Power Connector LED status Indicators Reset/LED control button Kensington security slot
Mounting	Ceiling/Wall mount clip
Power consumption	10.9W (DC)
Radio coverage	Dual-Band 802.11ax 2x2 5Ghz/2.4Ghz MIMO
Warranty	HPE Networking Instant On 2-Year
